Bahati Yves

Software Developer

Kigali, Rwanda
(078) 221-5206
bahatiyves@gmail.com

SUMMARY

Enthusiastic Software Developer with a strong foundation in both frontend development and networking. Experienced in creating functional and visually appealing websites using HTML, CSS, and React. Proven ability to collaborate with cross-functional teams to deliver effective design solutions. Eager to contribute technical expertise and creativity to a dynamic software development role.

EXPERIENCE

Andela — *Trainee*

Dec 2022 - April 2023

Andela Technical Leadership program is a 9-month program that helps young software developers boost their technical and soft skills and get ready to work. The program provides strong technical skills where we learn how to solve problems by making real-life solutions for the client. ATLP also provides leadership skills through which we know how to speak to clients and satisfy their needs

Improved Hub, Kigali, Rwanda — *Trainee*

Nov 2019 - Dec 2019 May 2022 - June 2022

November 2019 - December 2019, May 2022 - June 2022 Gained hands-on experience in software and hardware maintenance, WLAN installation and security, server configuration, and network troubleshooting. HOBBIES

Football
Pets care.
Cinematography and videography

- Maintenance of computer software and hardware as well.
-WLAN(Wireless Local Area Network) installation and security

-Server installation and configuration.
-Computer backup and restore

PROJECTS

E-commerce ATLP (Andela Technical Leadership Program) Project:

Certainly, here are the key points about the E-commerce ATLP Project:

1.Purpose and Scope:The E-commerce ATLP Project is a collaborative effort involving 8 colleagues, aimed at creating an online platform for buying and selling various goods.

2. Features:The project includes an intuitive online storefront where sellers list products with descriptions and images. Buyers can search, filter, and add items to their carts. Secure payments, order tracking, and feedback systems are integrated.

3. User-Friendly Experience: The platform offers user registration, personalized profiles, and a responsive design for seamless access across devices.

4. Admin Control: An admin panel allows administrators to manage users, transactions, and platform performance.

5. Timeline: Developed over 4 to 5 months, the project emphasizes effective teamwork to deliver a comprehensive e-commerce website catering to diverse user needs.
